

Nature's Neutrals

NEW QUARTZ ARRIVALS

 Wilsonart®
QUARTZ

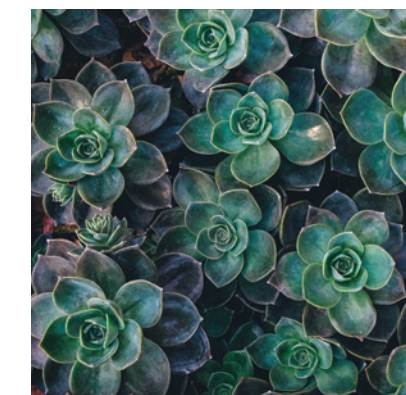

The Wilsonart® Quartz Collection.

DESIGN

The new Wilsonart® Quartz Collection celebrates nature-inspired colors and contours, while offering a true sense of escape.

Serenity. Set in stone.

At Wilsonart, we believe engineered surfaces can help create a sense of comfort and calm. Using pure, man-made stone surfaces that are inspired by nature provides restorative effects and a respite from the daily grind.

Natural Movement.

Nature is a combination of strength and flexibility. Peace and permanence contrasted with dynamic change. This essence is captured in our natural movement designs.

NATURAL MOVEMENT

HANOLA GREY

Inspired by the rocks on Oahu, Hawaii, this design features a two-toned dark grey color with undertones of brown and wispy white veins throughout.

Q4044

HAMO A

Inspired by the beautiful neutrals found at Hamoa Beach in Maui, with its warm grey background and swirling white veins, this design calls to mind a sunny day on the island shores.

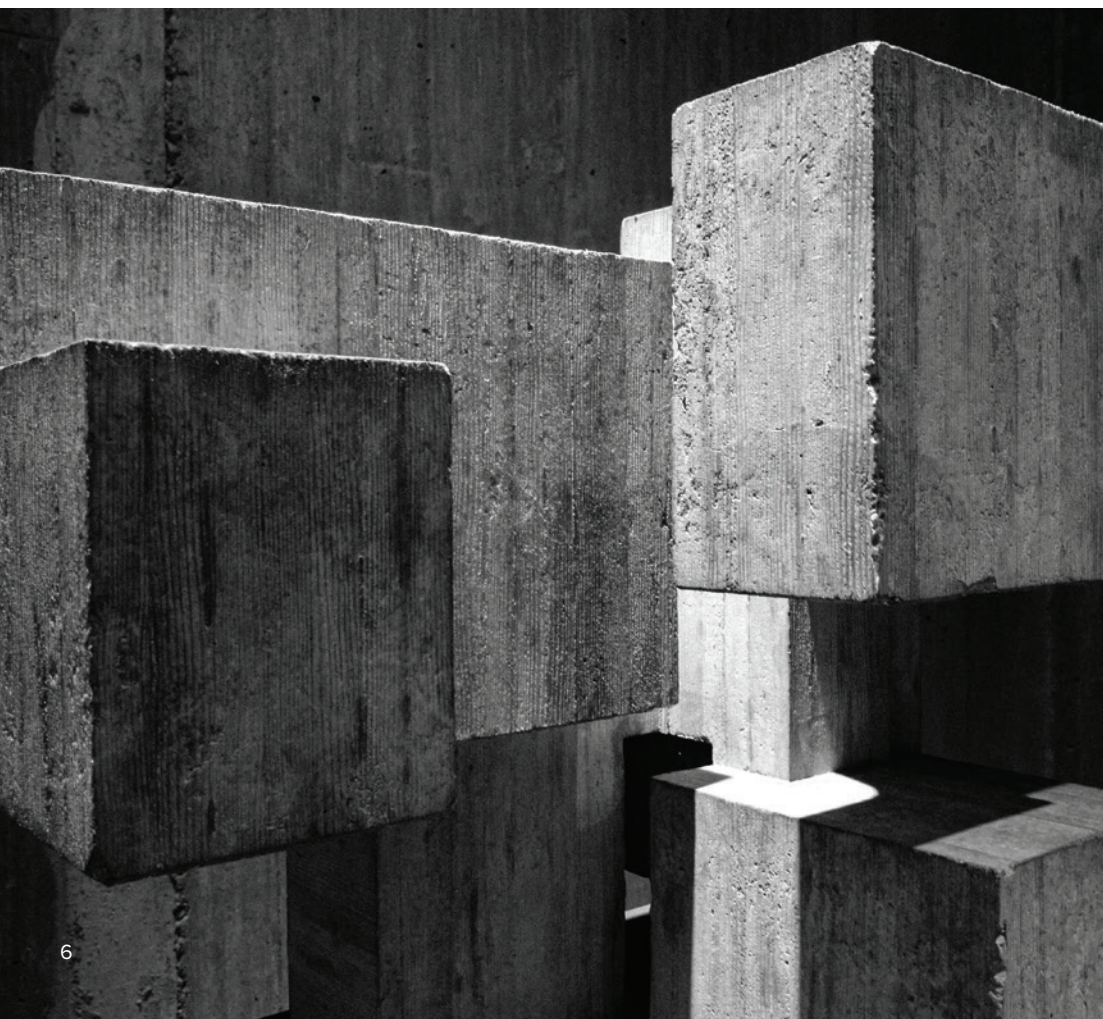

Q4045

Expressive Concretes.

Experience and wisdom define our Expressive Concretes, capturing deep personality through a weathered concrete look. It creates a modern appeal contrasted with profound character. Deep, interesting, and unique, these concrete looks add character and spirit to any space.

EXPRESSIVE CONCRETES

TRAIL RIDGE

A quartz countertop design that is the perfect starting point for personalization, with a two-toned grey background and light short veins throughout.

Q4042

DESERT VIEW

Inspired by the amazing Grand Canyon desert, with a two-toned warm grey background and subtle short white veins throughout.

Q4043

BODEGA

With a contemporary urban feel, Bodega creates an intriguing industrial look. Its fine-scale particulate and warm mid-tone grey strike the perfect balance of raw and refined.

Q1022

Classic and Large-Scale Terrazzos.

An interesting, fragmented look that resembles an ice formation or resin-bonded stones. Terrazzo designs are extremely popular today yet have an enduring quality that will stand the test of time. This unique style provides a grounding calmness and an uplifting respite.

CLASSIC AND LARGE-SCALE TERRAZZOS

OBERLIN

With large-scale black and brown-black particulates, Oberlin evokes the jagged, rocky edges of Montana's majestic Mount Oberlin. Awe-inspiring. Interesting. And with a sense of majesty and permanence.

Q3013

GALERA

A classic black and white large-scale terrazzo composition, created to transport you to the white and grainy dark beach sands of the Puerto Galera in the northern Philippines.

Q3014

KAREKARE

A journey to a black, sandy beach can be experienced through this extra-large terrazzo design. It features translucent particulates and varying earth tones, bringing a natural vibrancy to homes.

Q3015

Cirrus Whites.

Inspired by stranded, striated cirrus clouds. Bright by nature with interesting complements, these inspiring designs create a sense of airiness and weightlessness, with a grounded feeling of comfort.

Q4047
10

SVALBARD

As the world's northernmost inhabited area, Svalbard is the perfect getaway to experience the magic of the Northern Lights. Svalbard is a bright white quartz countertop design with cool charcoal grey veins.

CIRRUS WHITES

TIVOLI GREY

Tivoli is a small historic town in Italy surrounded by gardens. The light warm grey and short and subtle brown-grey veins of this quartz are designed to transport and transcend.

Q4048

CLOUDS REST

Inspired by low-altitude nimbus clouds that caress the landscape and delicately move through the environment, this design brings unique contour and softness through a white and grey background that is accentuated by darker grey veining.

Q4049

TRAIANO

Our muse was the portico-lined piazza found in the ancient imperial town of Foro di Traiano. Its warm white background and warm charcoal veins will add a subtle sense of old-world history.

Q4051
11

Long-Veined Marbles.

With long and dramatic veining found naturally in rock and stone, these designs borrow from nature's neutral colors in upscale marble looks. Inspired by timeless beauty and movement found in nature.

Q4052
12

CAPOGROSSI

Intersecting veins in charcoals and browns creates a sophisticated fractured look that is bold and captivating. Set on a warm white backdrop, Capogrossi will add warmth and intrigue to any space.

LONG-VEINED MARBLES

RIVER GLEN

River Glen recalls imagery of a narrow valley traversed by delicate, natural water features. This quartz design will add a crisp, dramatic sense of movement to your interior design.

Q4053

MADEIRA BEACH

Inspired both by the sands and celebratory character of the Florida beach. With its warm white background and contrasting but subtle grey veins, Madeira Beach adds a distinguished spirit of joy.

Q4054

LOGAN PASS

One of the most breathtaking drives in the world, Logan Pass evokes the feeling of an unending beauty found in Glacier National Park. Its two-tone grey quartz design is slightly translucent, with long, wispy, cool-white veins. Bringing both energy and splendor.
